ROAM

The ROAM series of custom collections is inspired by the destinations where your projects come to life. Influenced by landscape, architecture, culture and community, each ROAM destination imagines a unique perspective that captures the essence of the places we roam.

Welcome to
ROAM | Arctic Escape.

TO BRING YOUR IDEAS TO LIFE.

Arctic Escape

ROAM | *Arctic Escape* is inspired by the frost covered and icy landscapes of the polar tundra. Fields covered in glistening snow, cool tones, dramatic textures and organic patterns are designed in a variety of constructions to transport guests to a remote and relaxing wellness adventure akin to the arctic landscape.

We roamed into the artificial intelliverse
of the Arctic to reimagine space.
Where should we roam next?

At the heart of Shaw Contract, we create products and solutions that positively impact people and the planet. **We are Design Optimists.**

Sustainability is what unites us. It is our foundation and our purpose: our equal rights, our shared experience, our hopeful future. It is the air we breathe and the earth we stand upon.

For more information about these attributes, contact your local Shaw Contract account manager, visit us at shawcontract.com or call 1.800.257.7429

Material Health

We design and manufacture products to optimize human environments.

Responsible Design

Shaw Industries is committed to assessing our materials — to know as much about our product materiality, care and end-of-use, and to seek third-party certification.

Indoor Air Quality

People spend 90% of their time indoors, making these environments critical to our wellbeing. These products are Green Label Plus (GLP) Certified, meeting the California Department of Public Health (CDPH) indoor air quality standards for low-emitting products.

Carbon Impact

We are a positive force in the global effort to collectively fight climate change.

More than 50% Reduced Carbon Footprint

As a result of Shaw's investments to help reduce our energy and greenhouse gas impact, we have cut our Scope 1 & 2 emissions by more than half since our 2010 baseline.

Net Zero Operations by 2030

Our goal is to achieve net zero operations by 2030 across our enterprise while reducing the carbon footprint of our products and our value chain. In doing so, we remain committed to reducing our energy intensity (BTUs per pound of finished product) by 40 percent compared to 2010.

Circular Economy

We practice a closed-loop approach to sustainability.

Investing in Circularity

Shaw Industries invests in research and development, industry partnerships, academic research and innovative initiatives to grow and reinforce systemic circularity.

Diversity, Equity & Inclusion

We nurture an environment where every voice and perspective can be heard, with equal value placed on seen and unseen experiences.

Supplier Diversity Program

We promote supplier participation that is reflective of Shaw Industries' diverse customer base and local community. More than 60% of our spend* is with small and diverse businesses. We believe having a strong Supplier Diversity Program is strategic for bringing more innovation to our businesses and opening new markets for growth.

*Allowable spend is domestic (US) spend in categories in which we have diverse suppliers from which to choose.

We roam around the world.
