

LOW EMBODIED CARBON | CARBON NEUTRAL

BottleFloor

ShawContract®

Waste Diverted, Style Converted.

BottleFloor, a new hybrid flooring made from post-consumer PET bottles, is the first Shaw Contract collection to launch on the flooring platform, **ReWorx™**.

This **hybrid flooring** solution combines the durability of a hard surface with the comfort of a soft surface. A **100% PET** product that can be reused and recycled back into itself, **BottleFloor** merges innovation in product performance, materiality and circularity.

FELTED (REWORX™ TILE 5T455) IN VELVETEEN (55665) + PARCHMENT (55100) AND **STITCHED** (REWORX™ TILE 5T456) IN VELOUR STITCH (56667) + VERDURE STITCH (56328) + TWILL STITCH (56762) | BRICK

STAPLE FIBER + FELTED TILE

Designed With the End in Mind

Made with 100% PET fiber, BottleFloor incorporates an average of 62 recycled post-consumer plastic bottles per square yard and is fully recyclable back into new ReWorx™ at the end of its first life on the floor.

REWORX™

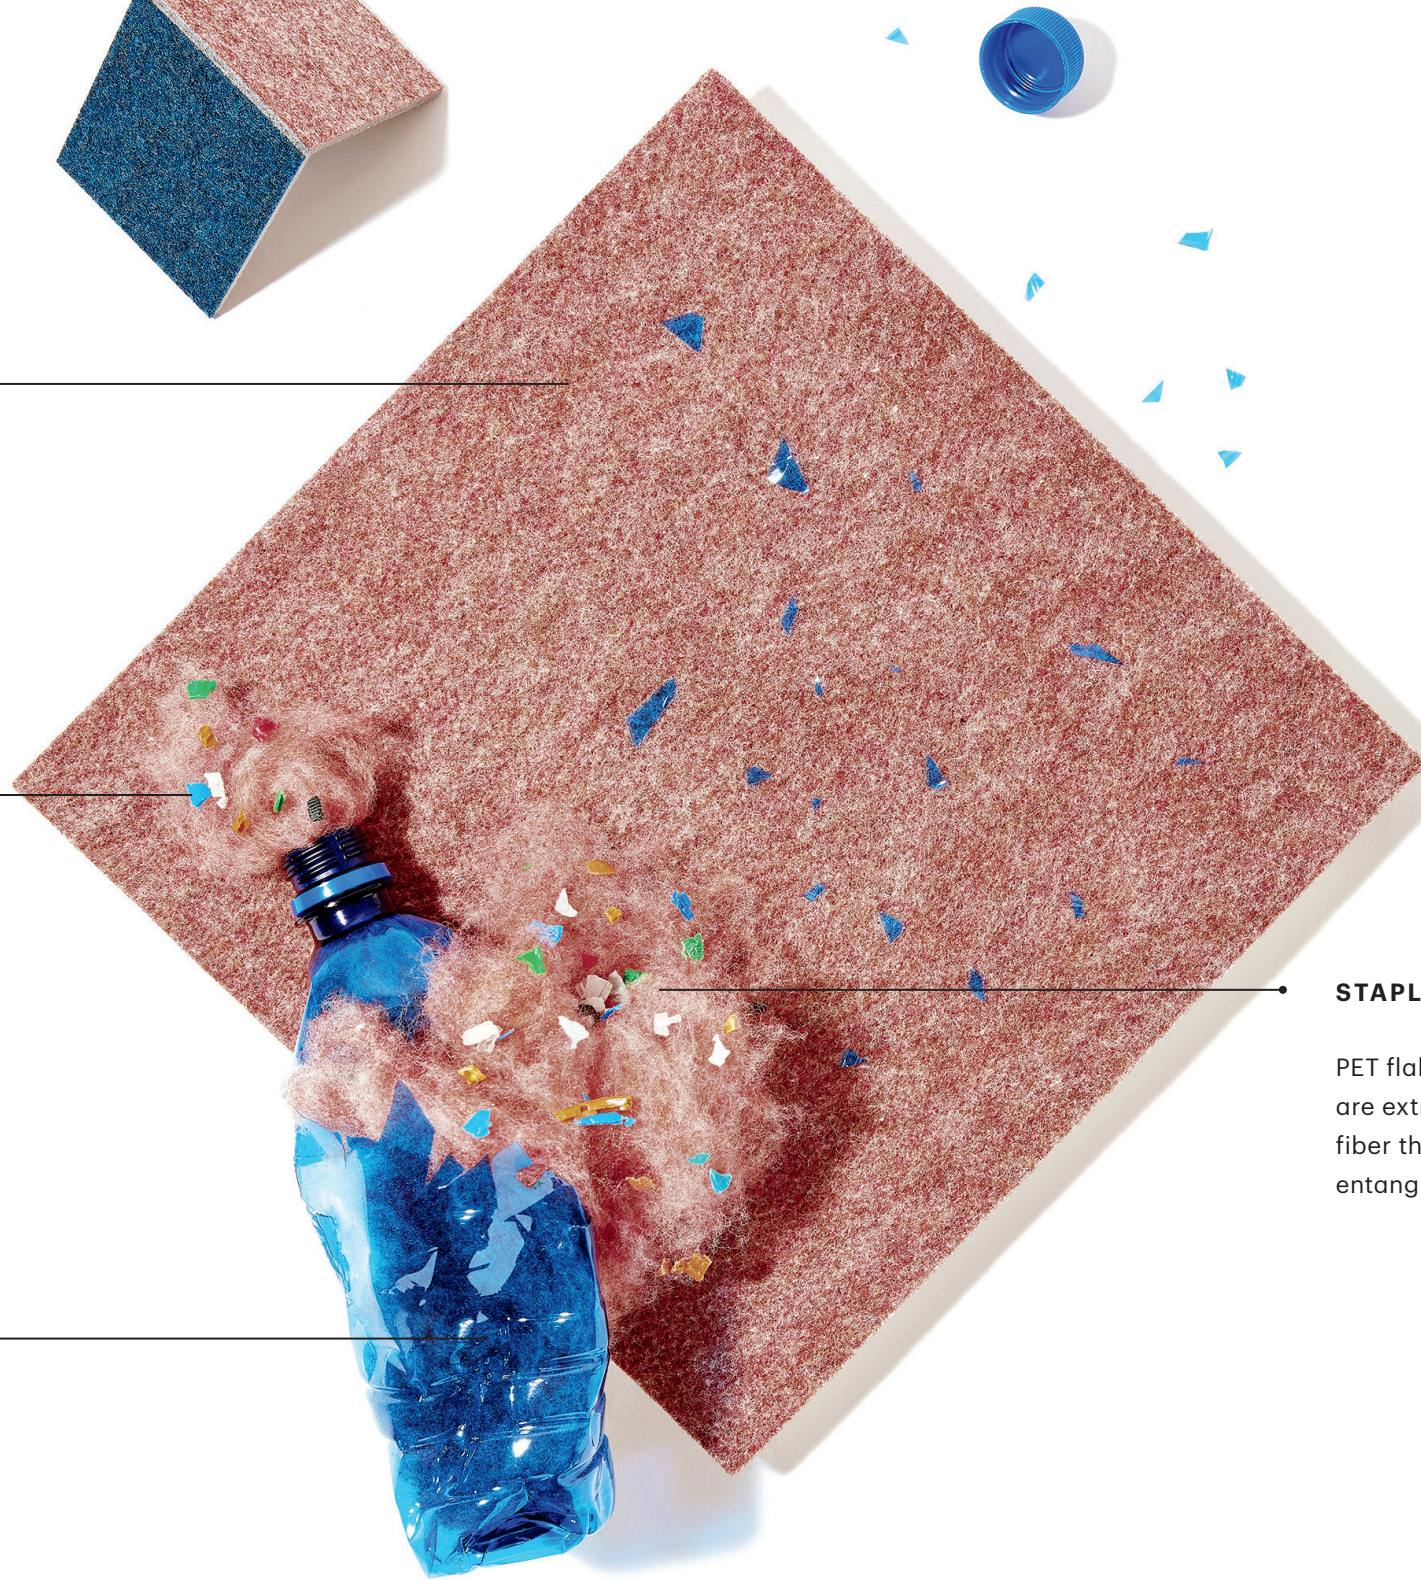

A hybrid flooring innovation with the durability of a hard surface + the comfort of a soft surface

FLAKE

Shredded single-use PET bottles to be extruded into staple fiber

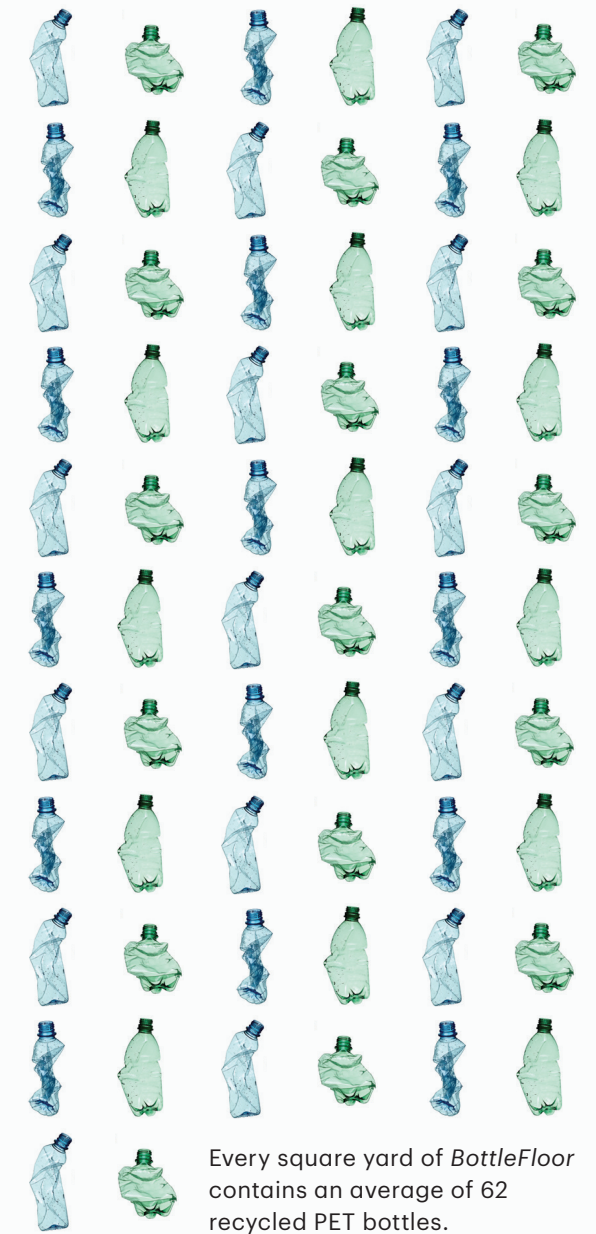

PET BOTTLES

One day you may walk all over this bottle

STAPLE FIBER

PET flake and pellets are extruded into staple fiber that is blended and entangled into fabric form

Every square yard of *BottleFloor* contains an average of 62 recycled PET bottles.

re[TURN]®

We Want it Back

Through Shaw's Environmental Guarantee, ReWorx™ can be picked up at no charge to the customer using the company's re[TURN]® Reclamation Program to be recycled into the next generation of ReWorx™ flooring, continuing the cycle of landfill diversion.

FELTED

Felted is a semi-solid felt texture that allows for a visual pause and a moment of color.

FELTED (REWORX™ TILE 5T455) IN GABARDINE (55870) | ASHLAR

Closing the Loop on Material Innovation

With a high-recycled content from single-use plastic bottles, BottleFloor can be recycled back into itself. We believe this is another next step, albeit a revolutionary one, on our journey to practice a regenerative closed-loop approach to sustainability.

**Manufactured with a unique needle punch process, BottleFloor may show subtle shade variation and fiber blending from tile to tile.*

Moisture Management*

Moisture is a main cause of flooring failures. ReWorx™ is breathable and allows moisture to rise and evaporate through the seams of the tile, alleviating most slab-based moisture concerns.

**No moisture testing required if there is no standing water.*

Improved Acoustics

Sound can negatively impact building occupants—that is why ReWorx™ was designed to decrease floor-to-floor impact sound (IIC ratings) and absorb in-room sound (SAA ratings).

Installation Possibilities

A plank format allows for fun and flexible installations, including ashlar, brick, herringbone and stagger. Group two or three planks together for a large format feeling to build scale.

No Transitions Needed

ReWorx™ installs alongside most carpet tiles for smooth transitions throughout your space with no need for a transition strip.

A Hybrid Innovation For All Spaces

BottleFloor combines the visual and underfoot comfort of a soft surface with hard surface durability, creating a unique hybrid innovation for high-performance environments.

Performs with Static and Rolling Loads

The high PSI tolerance of the product enhances resistance to indentation in areas with heavy static and rolling loads, per ASTM test methods. It offers optimum traction and slip resistance for the prevention of fatigue and injuries.

Stain Resistance

ReWorx™ high-performance PET construction is inherently stain resistant.

Superior Durability

The severe traffic tolerance rating of ReWorx™ provides enhanced durability in high-traffic areas.

15-Year Warranty*

Covers abrasive wear, static protection, stain, colorfastness to light and atmospheric contaminants, delamination, dimensional stability, and telegraphing.

* Non-prorated warranty providing full protection.

PET BOTTLE

STITCHED
Stitched is a semi-solid-felted base with a subtle striation of color running throughout.

STITCHED (REWORX™ TILE 5T456) IN VERDURE STITCH (56328) | ASHLAR

Feels Good to Do Good

A 100% PET product that can be reused and recycled back into itself, BottleFloor merges innovation in product performance, materiality and circularity.

Reducing Plastic Waste Stream

One of the most pressing environmental issues today is that of plastic pollution. ReWorx™ uses post-consumer recycled PET (Polyethylene Terephthalate) plastic to help consume waste plastics into a beautiful solution.

Material Innovation

ReWorx™ continues Shaw Industries' commitment to innovative sustainable solutions. Its unique multi-layer composite is constructed of PET from top to bottom. With high-recycled content from single-use plastic bottles, ReWorx™ can be recycled back into itself.

Made in the USA

ReWorx™ is sourced and manufactured in the USA.

STITCHED TILE + PET FLAKE + STAPLE FIBER = A HAPPY LITTLE HUMAN

At the heart of Shaw Contract we create products and solutions that positively impact people and the planet. We are Design Optimists.

Sustainability is what unites us. It is our foundation and our purpose: our equal rights, our shared experience, our hopeful future. It is the air we breathe and the earth we stand upon.

For more information about these attributes, contact your local Shaw Contract account manager, visit us at shawcontract.com or call 1.800.257.7429.

Material Health

We design and manufacture products to optimize human environments.

Cradle to Cradle Certified® Bronze

ReWorx™ is third-party verified as being safe, circular, and responsibly made.

Free of Ortho-Phthalates and PVC

ReWorx™ is free of ortho-phthalates and is PVC-free.

Indoor Air Quality

People spend 90% of their time indoors, making these environments critical to our wellbeing. These products are Green Label Plus (GLP) Certified, meeting the California Department of Public Health (CDPH) indoor air quality standards for low-emitting products.

Carbon Impact

We are a positive force in the global effort to collectively fight climate change.

50% Reduced Carbon Footprint

As a result of Shaw's investments to help reduce our energy and greenhouse gas impact, we have cut our Scope 1 & 2 emissions by more than half since our 2010 baseline.

Carbon Neutral

All ReWorx™ products are carbon neutral. Since 2018, our global carpet operations are 100% carbon neutral.

Low Embodied Carbon

All styles in the BottleFloor collection have a 3rd party verified EPD.

Circular Economy

We practice a regenerative, closed-loop approach to sustainability.

re[TURN]™ We Want it Back

Through Shaw's Environmental Guarantee, ReWorx™ can be picked up at no charge to the customer using the company's re[TURN]™ Reclamation Program to be recycled into the next generation of ReWorx™ flooring, continuing the cycle of landfill diversion.

Diversity, Equity & Inclusion

We nurture an environment where every voice and perspective can be heard, with equal value placed on seen and unseen experiences.

Supplier Diversity Program

More than 42% of Shaw Industries' spend* is with small and diverse suppliers. We want to promote supplier participation that is reflective of Shaw's diverse customer base and local communities, bringing more innovation and opening new markets for growth.

*Based on spend categories where we have domestic (U.S.) small or diverse suppliers that are capable of meeting our needs.

This product is manufactured and sold for floorcovering use only. To meet warranty requirements, approved adhesives must be used for glue-down application as outlined in the Shaw Contract installation instructions. Installation and maintenance instructions can be found on shawcontract.com. Specifications are subject to nominal manufacturing variances. Material supply and / or manufacturing processes may necessitate specification changes without notice. Not for use in commercial wet areas due to slip and fall concerns.
