CHAPTER ONE

Cool

This cool scheme delivers the perfect blend of sophistication and functionality with In Sync carpet tile styles Correspond, Companion and Partner at its core. These varying textural scales build natural transitions across the places we work, engage, collaborate and learn.

Design on Demand: Where exceptional choice meets speed of delivery

Workplace renovation timelines are tight, and expedited delivery
is key for compressed construction schedules.

StrataWorx®: modern materials, innovative manufacturing

Shaw Contract Palette of Possibilities highlights products with Shaw Contract StrataWorx®, a backing system that combines modern materials and innovative manufacturing for a lightweight, durable carpet tile at an accessible price point.

Cradle to Cradle Certified™

Designed and assessed for environmental and social performance across five critical sustainability categories: material health, material reuse, renewable energy and carbon management, water stewardship, and social fairness.

Value Through Innovation

StrataWorx® is a lightweight polymer composite backing that is PVC-free and contains 30% pre-consumer recycled content. Engineered for efficiency in manufacturing, transportation and at the job site, StrataWorx is designed as a durable carpet tile at an accessible price point.

Indoor Air Quality

People spend 90% of their time indoors, making these environments critical to our wellbeing. This product is Green Label Plus (GLP) Certified, meeting the California Department of Public Health (CDPH) indoor air quality standards for low-emitting products.

No Transitions Needed

Most StrataWorx® carpet tile can be installed next to 2.5 mm LVT without the need for transition strips; most EcoWorx® carpet tile installs next to 5 mm LVT with no need for transitions.

Faster Installation Reduces Cost

Time is money. StrataWorx® is designed for efficiency, ease of handling, installation, and storage, with up to 20 tiles per box. This results in reduced cost, less waste and a faster installation than traditional broadloom.

Quick Ship

With Quick Ship products, you can order material when you need it — up to 2,500 square yards — and it will ship within two weeks or less.

LVT with ExoGuard+™: Durability for demanding workplace spaces

Shaw Contract Palette of Possibilities include U.S. manufactured Quick Ship LVT products Terrain II, Inspire and Compound + Cast offered in both 2.5 mm and 5 mm thicknesses with ExoGuard+™, an advanced topical finish technology that delivers the highest performance scratch resistance and resists UV light degradation, hand sanitizers, disinfectants and common stains.

Total Recycled Content

30% Pre-Consumer

Superior Durability

ExoGuard+™ advanced topical finish technology delivers the highest performance scratch resistance and resists UV light degradation, hand sanitizers, disinfectants and common stains.

Polish-Optional Reduces Cost

ExoGuard+™ is a highly durable finish that can be installed as is to reduce the cost of annual maintenance. If a polished look is desired it requires no coating prep work.

LEEDv4 Contributions

IEQ – Floorscore IAQ Certification
MR – RFCI Industry Average EPD

Static and Rolling Loads

The high PSI tolerance of the product enhances resistance to indentation in areas with heavy static and rolling loads per ASTM test methods.

No Transitions Needed

Most StrataWorx® carpet tile can be installed next to 2.5 mm LVT without the need for transition strips; most EcoWorx® carpet tile installs next to 5 mm LVT with no need for transitions.

Broadloom: Seamless visual for all the spaces where you work

When budget is key, choose from a variety of Shaw Contract tenant improvement broadloom options. Available in a variety of pattern scales and color options, broadloom is a valuable workplace flooring solution.

Made in USA

Manufactured in the United States.

Broadloom

Ideal for all designs, broadloom backing provides superior pattern matching and durability.

Tried & True

We stand behind the quality and craftsmanship of our products with our Lifetime Broadloom Warranty. Warranting against tuft bind/ zippering, delamination, edge ravel and pattern matching of seams this warranty will protect your flooring investment.

Cradle to Cradle Certified™

Designed and assessed for environmental and social performance across five critical sustainability categories: material health, material reuse, renewable energy and carbon management, water stewardship, and social fairness.

Quick and Easy Installation

Broadloom carpet installs easily with traditional installation techniques. Removal is simple.

Quick Ship

With Quick Ship products, you can order material when you need it — up to 2,500 square yards — and it will ship within two weeks or less.

Rugs: Flooring solutions for diverse spaces

Shaw Contract commercial grade rugs ship quickly and install effortlessly without any additional accessories. Our rug platform easily helps you create spaces that encourage collaboration, radiate warmth, and deliver a lasting impression.

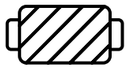
ECO SOLUTION Q®

Made in USA

Manufactured in the United States.

Proven Fiber Performance

Shaw Contract decades of experience in the flooring industry led us to develop our own fiber technology. Eco Solution Q® fibers are 100% recyclable nylon engineered to reduce soiling while retaining color and appearance.



Lifetime Stain and Color Protection

Eco Solution Q® is backed by a Lifetime Commercial Warranty covering fiber abrasive wear, static protection, staining and colorfastness to light and atmospheric contaminants.

RUGS

Ease of Installation

Installation is as simple as rolling out the rug. No accessories are needed; each of our rugs is designed and manufactured with attached non-skid backing and a serged or hidden edge.

Improved Acoustics

Sound can negatively impact building occupants—that is why our rugs were designed to absorb in-room sound (SAA ratings) more than standard carpet tile and hard surfaces. An area rug can create a 40% increase in sound absorption when compared to concrete alone.

Big Ideas, Broadloom

Like a bolt of fabric, tufted solution-dyed nylon rugs are cut on demand for a custom look from 12-foot broadloom styles. The directionality of the rug and exact pattern changes based on the size ordered.

CHAPTER FIVE

Aqua

Glassy shades of green and rich patina intersperse with bold pops of color, bringing a memorable atmosphere to large and small spaces in the modern office.

Occupied renovations? No worries

Don’t fret over employee disruption in your work space. Shaw Contract carpet tile is a great option for occupied renovation projects. As existing carpet is removed from an office space, install carpet tile with little interruption to employees occupying the space.

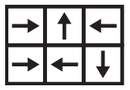
Carpet Tile: product solutions for proposed future expansion

Consider the ebb and flow of office spaces in your flooring design investment. When installing carpet tile in offices, don’t worry over future expansion changes. Choose one hard-working carpet tile in your small huddle and conference rooms. When these areas need to change to private offices in the future, your Shaw Contract flooring choice will follow suit.



Be Random

Install tiles in any configuration for faster installation and reduced labor costs. When a tile needs to be replaced, simply remove the old one and put a new one down in any direction.

Mix Dye Lots Undetectably

Mergeable dye lots offer unique color patterning, layered textures and smart gradations that make it even easier to mix and match replacement tiles over the course of time without worrying whether colors will match previous orders.

Selectively Replace Tiles as Needed

No Rules carpet tiles provide the ability to replace small sections of flooring, ordering material as needed instead of keeping track of attic stock. Replacing a few tiles at a time is a great way to lessen your carbon footprint.

CHAPTER SIX

Red

Bold, playful undercurrents of red and orange energize this palette, promoting group collaboration and interaction in the office space.

The collaborative office takes shape

The modern workplace is more than a place of individual productivity; it's evolving into a canvas upon which companies communicate their vision and core values. Likewise, office space has emerged as a hub for collaboration and collective ideation. Flooring creates active, inviting spaces in which agile teams gather to engage and innovate, as well as warm, quiet areas for reflection and focused work.

At Shaw Contract, Everything is Connected

On average, people spend almost 90% of their time indoors. It is our imperative to ensure that the time we spend working, playing, healing, and learning in the built environment is spent on flooring that has been responsibly manufactured for the best human experience.

STRATAWORX® CARPET TILE

Cradle to Cradle Certified™

Designed and assessed for environmental and social performance across five critical sustainability categories: material health, material reuse, renewable energy and carbon management, water stewardship, and social fairness.

Value through Innovation

Shaw Contract's decades of experience in the flooring industry led us to develop our own fiber technology. Eco Solution Q® fibers are 100% recyclable nylon engineered to reduce soiling while retaining color and appearance.

Indoor Air Quality

People spend 90% of their time indoors, making these environments critical to our wellbeing. This product is Green Label Plus (GLP) Certified, meeting the California Department of Public Health (CDPH) indoor air quality standards for low-emitting products.

LVT

FloorScore® IAQ Certified

This product is third party certified for low VOC emissions, contributing to valuable IEQ points for LEEDv4 credits.

Non Ortho-phthalate construction

Formulated without ortho-phthalates.

Total Recycled Content

CHAPTER SEVEN

Accessories

Solutions for all Flooring Needs

Single choice for all your flooring needs

The Palette of Possibilities features coordinated market-ready flooring solutions for a growing and ever-changing workplace, including a vast variety of flooring accessories to streamline your purchasing process. Turn to Shaw Contract for a cohesive and simple sourcing process for your flooring needs.

EntryWay Tile

Shaw Contract entryway systems are the most effective way to protect and maintain interior flooring. All Access, zone 2, and zone 3 interior walk off tiles use high-performing Eco Solution Q® nylon plus a high denier textured scraper nylon fiber to stop soil and moisture from being brought into a building.

Both styles feature enhanced performance attributes, including superior tuft binding, no delamination, and no edge ravel. Daily vacuuming and maintenance are recommended along with periodic deep cleaning through hot water extraction.

Managing Moisture from the ground up

Commercial property owners spend $1 billion annually on excessive moisture remediation and subsequent flooring replacement. Shaw Contract offers the broadest selection of products to address moisture management concerns, targeting bottom-up issues in concrete.

Shaw Contract is the only manufacturer that warranties from the subfloor to the finished product. Our comprehensive portfolio allows us to work with you to address your specific needs from basic to extreme conditions.

Stair Tread

The **standard stair tread** is a rubber, slip-resistant floor covering that is intended to increase safety conditions in stairwells. The standard tread comes in two sizes — 4 foot and 6 foot.

The **luminous stair tread** is a rubber, slip-resistant floor covering that is intended to increase safety conditions and visibility in stairwells. The luminous tread comes in two sizes — 4 foot and 6 foot.

Wall Base

Shaw Contract rubber base and accessories epitomize flexibility, durability, and reliability. Four profile options of wall base meet strict specifications and stringent environmental demands. Pair these with carpet and hard surface for a complete Shaw Contract flooring package.
